Overview

- I am an employee in the field of interior decoration. When I was determined to change my career, plus my logical thinking and self-study ability, I sign up for a programming training course at the Funix
- I am a student studying at funix-FPT with Full-Stack Web Development
- Ability to learn and apply new technology quickly
- I am currently looking for a job with the position of Full-Stack developer. I always try to improve my skills as well as learn more in the future.

Objectives

Long-term

Become a manager, participate in the management and management of the company

Short-term

Having a stable job, becoming an excellent employee, gaining more experience.
